

Road Logistics

Drive your success in Asia with our trucking services

No matter the volume or complexity, we move your cargo through the supply chain to the right place, at the right time.

Road Logistics

Take advantage of our digital trucking ecosystem that allows you to have complete visibility of in-transit shipments and cargo conditions.

KN AsiaDirect

Your full and part load shipment solution with our comprehensive carrier pool and equipment:

- Access reliable and flexible shipping, even during peak seasons
- Save cost with our structured and reliable milk runs
- End-to-end visibility with 24/7 monitoring and tracking via our digital platform

Cross-Border Management

Take the complexity out of your shipments with our ASEAN network:

- Accelerate your border crossings with our customs brokerage services
- Keep your business updated on local compliance and licences
- Minimise handling and touchpoints for your cargo's safety
- Enjoy a wide range of choices for trucks, trailers and equipment

eTrucknow

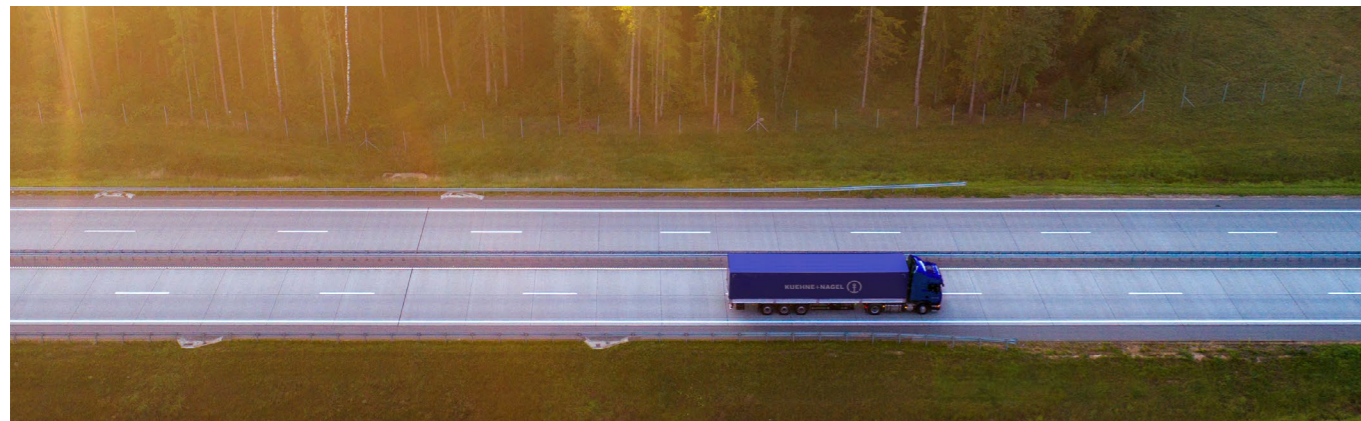

Book, view and manage all your shipments on one digital platform:

- Compare instant, competitive quotes easily
- Select the best carrier and safest route with our risk management tool
- Integrate your data fully to improve your workflow and efficiency
- Get real-time data and performance analysis

Sustainability on the Road

Take action and combat climate change:

- Reach your sustainability targets with our zero carbon business model
- Lower your carbon footprint through smart planning and route optimization via our digital platforms
- Choose to ship environmentally with our electronic vehicles (EVs) and alternative fuel solutions

Successes achieved through collaboration, creativity and knowledge

The COVID-19 pandemic forced many businesses to change their ways of working. Our team in Thailand worked diligently to address our customers' urgent needs:

Case 1: When the healthcare industry was in crisis, we delivered pharmaceutical products to China, Laos, Myanmar and Vietnam via temperature-controlled trucks. Our global network in ASEAN ensured minimal touchpoints to reduce any contamination risk.

Case 2: When the Pingxiang and Dongxing borders in China faced congestion, the transit time was extended from seven to 25 days. We used an alternate route via our Rail + Road solution to bypass 4,000 trucks. The shipments arrived on schedule.
